

jewel collection

ferretto

Una collezione preziosa e raffinata nata dall'unione tra il gusto artistico e la ricercatezza della Gioielliera italiana e la ricerca e il design dell'accessorio d'arredo.

Jewel è una vera e propria collezione di "gioielli per il mobile": maniglie ispirate alla tradizione artigianale dei nostri orafi e argentieri e impreziosite, oltre che dalle perfette lavorazioni e finiture Ferretto, dall'uso di pietre sintetiche di elevatissima qualità e soprattutto dall'inconfondibile e magica luce degli elementi Swarovski.

A precious and refined collection born from the union between the artistic taste and the refinement of the Italian jewellery, and the design research in the furniture accessories.

***Jewel** is a real collection of "jewelry for furnitures": handles inspired by the tradition of our artisan goldsmiths and silversmiths and enriched not only by Ferretto's perfect processing and finishing, by the use of synthetic stones of the highest quality and above all by 'unique and magical light of Swarovski.*
